

IN THE SPECIFICATION

On page 4 after line 11 insert the following: Figure 20 shows the portion of Figures 18 and 19 which is prior art which are bag holders which allow sequential bags to be loaded with groceries before the loaded bags are loaded onto the new portion of the invention.

On page 9 edit lines 6 & 7: In order to allow the system to be efficiently used, the counter ~~a flag~~ 62 is provided so the counter ~~flag~~ 62 may be raised like a mail box flag in order to indicate that the loader is to be utilized for the bags.

On page 9, after line 9 insert: Handles 1a with strings 2 below handle 1 form second strap means which may be sequentially dispensed.

IN THE DRAWINGS

New drawings have been submitted in order to comply with 37 CFR 1.84(p)(4) and corrected drawing sheets in compliance with 37 CFR 1.121(d) are attached.

The prior art designation has been removed from figures 18 and 19. A new figure has been added, Figure 20, which shows the part of the prior two figures which was prior art.

That has been corrected by adding the new figure, Figure 20 which shows the prior art bag dispensing mechanism.

Figure 18 has been edited to more clearly designate the handles and straps below the first handle and strap. These are shown and described in the specification (see page 8 line 10, page 8 line 23-page 9 line 5; for example) and are clearly shown on the original figure 18, although for clarity they are separately numbered.
